Natera

EREQ

Central Registration

1. Check the patient into the lab
2. Do not order any testing in EPIC
3. Yellow slip the patient and send to the lab with the Natera EREQ

OP Lab/PSC

1. Update ward code to 7168 - MCWHC-PIWC
2. In SoftLab only, order appropriate test code

> NPTQ - NATERA PANORAMA EREQ ONLY (if EREQ has test code PTQ)
> **OR**
> HCSQ - NATERA HORIZON EREQ ONLY (if EREQ has test code HCS_14 or HCS_40)

3. Collect and receive the specimen
4. Label the specimens with the SoftLab generated labels

NPTQ - NATERA PANORAMA EREQ ONLY

NOTE: Two SoftLab labels will print with container code **STRCK** and label text **IMPORTANT - Use tiger top tubes from kit for collection. Place Natera EREQ in the kit Store ambient/room temperature**

HCSQ - NATERA HORIZON EREQ ONLY

NOTE: Three SoftLab labels will print with container code **LV9A** and label **text IMPORTANT - For test codes HCS_14 and HCS_40. Place Natera EREQ in the kit Store ambient/room temperature**

5. Place the specimens and Natera e-requisition in the kit
6. Forward to the laboratory

For hospital outpatient lab, once lockbox is available

1. Go to specimen tracking
2. Select the Natera lock box from the specimen tracking list
