Algorithm for Hepatitis C Testing

```
                          ┌─────────────┐
                          │   Anti-HCV  │
                          └─────────────┘
```

Anti-HCV

- **Positive >1.20**
  - **High Ratio >= 10**
    - **No Further HCV Testing**
  - **Low Ratio 1.20—10.0** → HCV RNA
- **Indeterminate 0.80-1.20** → HCV RNA
- **Negative 0-0.79** → HCV RNA

HCV RNA

- **Positive**
  - **No Further HCV Testing**
- Negative RNA AHCV P/I
  - RIBA
    - **Positive**
      - **No Further HCV Testing**
    - Negative OR Indeterminate → **Retest Next Year**
- Negative RNA AHCV N → **Retest Next Year**
